

DESCRIPTION

- Ergonomically designed with safety features, ideal for handling passenger cars, light trucks and high performance wheels.
- Handles wide variety of tyre stiffness rim sizes up to 24" and precise pneumatic locks in working position
- Rigid design to reduce possibility to harm rim and tyre bead of low profile and run-flat wheels

SPECIFICATIONS TABLE

SPECIFICATIONS	Tilt-back 24"
Tire Lever	●
Manual Inflator	●
Plastic Protector for Clamping Jaws	●
Holder for Tire Lubricant Container	●
Plastic Protector for Mounting Tools	●
MH	Optional
Servicing Unit with Pressure Relief Valve and Oiler	●
Maximum Wheel Diameter	39" (1000 mm)
Maximum Tire Width	13" (330 mm)
Inner Clamping Range	12" - 24"
Outer Clamping Range	10" - 24"
Turntable Speed	6.5 rpm
Bead Breaking Force	10 kN
Compressed Air Supply	8 - 12 bar
Power Supply	230V, 1 Ph, 50-60Hz, 17A
Weight	230 kg
Dimensions (D*W*H)	1700x1300x1910
